NOTICE!

Montpelier, Vt., June 1, 1906.

This circular is to give notice that, notwithstanding the circular of May 15, 1906, signed by Harry W. Whitcomb, and notwithstanding the patent right suit instituted by him against our firm, we are still supplying our customers with polishing wheels and parts of the same, and taking care of all patent right suits that any person may see fit to bring against us.

No person need have any fear of any patent right polishing wheel suits, as this is not the first one that has been brought. Said Whitcomb brought one in April, 1897, and the same has been pending in court ever since, as the instigator of it has never seen fit to do anything with it, and customers are in no more danger now than they have been in the past nine years. Moreover we will defend and take the consequences of any patent right suit resulting from the use of our polishing wheel or scrolls.

Our newly patented machine for turning the scrolls of our polishing wheel (the only one of its kind ever made) enables us to put on the market a polishing wheel far superior to anything else of its kind, and to sell them at the same price as those of inferior grade. We expect to retain exclusive control of this machine and to continue to produce the best polishing wheel ever made, with no advance in price.

Thanking our customers for past orders, we solicit your patronage for the future.

A GOOD REASON.

The People of Barre Can Tell You Why It Is So.

Doan's Kidney Pills cure the cause of disease, and that is why the cures are always lasting. This remedy strengthens and tones up the kidneys, helping them to drive out of the body the liquid poisons that cause backache, headache and distressing kidney and urinary complaints. Barre people testify to permanent cures.

L. H. Hooker, retired, of 101 Prospect street, Barre, Vt., says: "Doan's Kidney Pills, which I got at E. A. Drown's, did me more good than all the prescriptions and other remedies I ever used. Over eight years ago I gave a statement for publication telling what they had done for me, and today I have even more confidence in them than I had at that time. I had suffered for a long time from kidney complaint, and it finally became so bad that my condition was considered serious. My back ached nearly all the time, an annoying urinary difficulty existed and the action of my kidneys was disordered. I used every remedy I heard of, but without beneficial results until I at last resorted to Doan's Kidney Pills. I used in all five boxes and received wonderful relief. I use this remedy occasionally now, and have recommended it to dozens of people, many of whom have been so greatly benefited that they have come back and thanked me for telling them of this valuable medicine."

For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

DIRT AND FILTH IN MARYLAND.

Slaughter House Said to Be in a Shocking Condition.

Baltimore, Md., June 9.—That the State supervision of two hundred beef slaughtering houses in Baltimore is a farce, that diseased cattle from the West and nearby markets are killed and sold here and that the slaughter houses reek with filth and foul odors was the joint announcement made by Dr. John S. Fulton of the State board of health, and Alvin N. Bastable, president of the Union Stock Yards Company. As the restaurants have been displaying signs, "No western beef served here," this announcement came as a distinct shock. Dr. Fulton has been making an inspection of the slaughter houses for the State authorities, while Mr. Bastable is head of the largest beef handling corporation in Maryland.

According to Mr. Bastable, cattle dead from disease and old bulls unfit for selling as even the poorest class of fresh beef are hung up in storage until blue and then ground up with potato flour and red paint to give the color of cured hog meat, and sold on hundreds of Baltimore counters, as "prime Baltimore sausage." Dr. Fulton states that in "Butcher-town" the dirt and filth are well nigh indescribable. Beneath the slaughter houses grease, offal and filth are jumbled together and the soil is alive in some instances with animalculae.

RESEMBLED BARRE GRANITE.

Does Stock Found Near Lake City, Minn.

Some time since, a friend of S. M. Warman, of Lake City, Minn., who was working in Kanabec county, Minn., stumbled over some rock, while hunting through the woods. Remembering that his friend was in the business of making monuments and markers for cemeteries, he sent a piece of the rock to Mr. Warman, asking if it was good for anything. Upon putting the sample in his polishing machine, and under the hammer, he found he had a rock that so closely resembled the best grade of Barre granite, that placing them side by side, he could hardly see the difference. He found also that it worked easier than the Barre, and was a little finer in texture, being particularly even in color, the same as the Vermont stone.

He called the attention of N. C. Pike, the real estate man, to what he had in hand, and asked, "What do you think of that?" Mr. Pike, who has studied granite somewhat, replied, "It is a very fine grade of Barre," but upon being informed that it came from Kanabec county, he immediately said, "I want some of that land." They made a trip to the region where the find was made and discovered not only an apparently endless amount of the best grade (which is a very dark gray) on one forty, but also that on the adjoining forty there was sufficient of a second grade granite to supply any probable demand. The ledge containing the best is beside a little creek, and forms a bank of fifteen to twenty feet, and to an appearance reaches sixty rods into that forty.

To get the outcropping of the whole ledge, Mr. Pike bought several surrounding forties. He now has Mr. Warman installing derricks at the quarries and at the railroad, and expects dealers in this and adjoining states. He named the creek after Mr. Warman, and the granite, "Warman Creek Granite."

The business will be conducted under the name of the Pike Granite Company with offices in Lake City.—Exchange.
